

DO YOU HEAR VOICES?

Perth Voices Clinic

The Perth Voices Clinic is a specialist psychological treatment, training and research clinic for people who hear voices or have other unusual perceptual experiences.

What We Provide

- A detailed assessment of your voice hearing experience, advice and options for therapy
- Individual therapy
- Group therapy
- Neuropsychological assessments
- The option to participate in research into voice hearing (and related) experiences
- All the therapies that we offer are evidence-based.

Who Is Eligible For Our Services

No diagnosis is required, and you do not need to be receiving other services or treatments. We just ask that you be linked in with a GP.

The clinic is currently only seeing adults (18 years+).

Where We Are Located

The Clinic runs from Murdoch University Child & Adult Psychology Service (Building 440 Social Sciences),

Murdoch University, 90 South Street, Murdoch, WA 6150.

How It Works

We request that you receive a Mental Health Care Plan from your GP with a referral to the Perth Voices Clinic (clinical psychology) prior to your first appointment.

The service is low cost. The out-of-pocket fees are \$30 per session or \$15 per session for concession.
